## NC State Poultry Science Club & Heifer International

### 2008-09 Service Initiative

*Helping children and families around the world  
receive agricultural training and gifts of poultry  
that assist them in becoming self-reliant.*

## Why your donation will make a difference:

A flock of chicks, ducks, or geese can help families from Cameroon to the Caribbean add nourishing, life-sustaining eggs and meat to their inadequate diets.

The protein in just one egg is a nutritious gift for a hungry child. Protein-packed eggs from even a single chicken can make a life-saving difference.

Your donation helps many hungry families by providing them with a starter flock of 10 to 50 chicks. On average, a hen in the developing world can lay up to 200 eggs a year - plenty to eat, share or sell.

Because chickens require little space and can thrive on readily available food residue, families can make money from the birds without a large investment. In addition, chickens help control insects and fertilize gardens.

For as little as \$20 you can provide the resources to assist a village in the developing world.

### Please send your donation to:

NC State Poultry Science Club  
2711 Founders Drive, Campus Box 7608  
NCSU Dept. of Poultry Science  
Raleigh, NC 27695-7608

Please make checks payable to:  
NC State Poultry Science Club
