Raleigh, NC 27611

Dear Commissioner Phipps:

Since its inception on October 2, 2000, the Watauga County Voluntary Preservation Program has been very successful. We anticipate continued growth in the future.

To date 4401.8 acres have applied for the program. 4262.9 acres have been accepted into the program. These acres are made up of 173 tracts owned by 63 different landowners. 138.9 acres have been denied. Enclosed you will find spreadsheets showing the information that the Ordinance requires we provide to you.

Thank you very much for your continued support of this program.

Respectfully,

Doug Clawson
